game description

- Chase the Flush is an exciting new card game where players and the dealer compete head-to-head using three hole cards and four community cards to make their longest possible seven-card flush.
- Players win by having more cards in their flush than the dealer. Card rankings Ace (high) - 2 (low) are used to break ties if a player and the dealer have the same number of cards in their flush.
- Mandatory X-Tra Bonus pays when player wins with four or more cards of the same suit.
- Optional Same Suit Bonus bet wins if the player has a four-card flush or higher.

game rules

- 1.** Players must make equal bets on the Ante and the X-Tra Bonus. They may also make an optional Same Suit Bonus.
- 2.** Each player and the dealer receives 3 hole cards.
- 3.** Players then make a choice of checking or betting 3x their Ante on the All In bet.
 - *Once players bet, they cannot bet again and they cannot change their bet.
- 4.** The dealer then places the first two community cards (the Flop) face up on the layout.
- 5.** Players that have not yet made an All In bet have a choice of checking or betting 2x their Ante on the All In bet.
- 6.** The dealer then places the final two community cards (the Turn and the River) face-up on the layout.
- 7.** Players that have not yet made an All In bet have a choice of folding or betting 1x their Ante on the All In bet.
- 8.** The dealer then reveals his three hole cards and announces his seven-card flush.
- 9.** The dealer needs a 9 high three-card flush in order to qualify. If the dealer does not qualify all Ante bets push. The player must beat the dealer to win the All In bet and X-Tra Bonus bet.
- 10.** When the dealer qualifies and the player's flush beats the dealer's flush, the All In and Ante bets win even money.
- 11.** When the dealer qualifies and the player's hand loses to the dealer, the All In, Ante and X-Tra Bonus bets lose.
- 12.** When the hands tie, the All In, Ante and X-Tra Bonus bets push.
- 13.** The X-Tra Bonus bet wins when the player beats the dealer with four or more cards of the same suit. See payable for odds. If the player wins with less than a four card flush then the X-Tra Bonus bet pushes.
- 14.** The Same Suit Bonus bet wins if the player has a four card flush or higher. Player does not have to win hand to win Same Suit Bonus. See payable for odds.
