

Bad Beat Jackpot

The Poker Room Bad Beat Jackpot will be initially seeded at \$10,000. The jackpot amount will increase by \$500 every Monday and Thursday at 10:00 a.m. Following any qualifying Bad Beat Jackpot payout, the jackpot will automatically be reseeded to \$10,000 and will resume the scheduled increase cycle.

In order for a Bad Beat Jackpot to be awarded, a qualifying hand must occur during active play. The hand must be Four of a Kind Deuces (2's) or higher. Both hole cards must play as part of the final five-card hand for both the winning and losing players. Hands that are formed entirely from community cards on the board (board-only hands) will not qualify for the Bad Beat Jackpot.

There must be a minimum of \$15 in the pot (house rake is included in total).

Once a qualifying Bad Beat Jackpot has been confirmed, the jackpot will be distributed based on the following structure:

- 50% of the jackpot is awarded to the losing hand
- 30% of the jackpot is awarded to the winning hand
- 20% of the jackpot is awarded as a table share

To qualify for the table share portion of the jackpot, players must be actively seated and dealt into the qualifying hand.

The qualifying hand must occur during a live, raked poker game. Promotional, tournament, or non-raked games do not qualify. Additionally, a minimum of four players must be dealt into the hand in order for the Bad Beat Jackpot to be eligible for payout. Bomb Pots are not eligible for Bad Beat.
